Santé mentale / Mental Health

Cette section est consacrée aux articles en lien avec les personnes âgées souffrant de problèmes de santé mentale (Dépression majeure, schizophrénie, etc). Sont cités seulement occasionnellement des articles portant sur les personnes atteintes de démence (maladies neurodégénératives au sens du DSM V comme la maladie d'Alzheimer, etc.). Sont retenues plus particulièrement les études réalisées dans la communauté.

Selected articles focus on seniors suffering from mental health issues (major depression, schizophrenia, etc.). Most of the studies are carried out in the community. Only occasionally do we select articles on people affected by dementia (neurodegenerative diseases as defined by the DSM V, such as Alzheimer's, etc.).

Soins palliatifs / Palliative Care

Sont signalés ici les articles portant sur les aspects psycho-sociaux liés aux soins palliatifs (Les articles purement bio-médicaux ne sont pas retenus). Aucun milieu n'est exclu, mais une attention particulière est apportée sur les soins à domicile et sur les problématiques liées au deuil.

Selected articles examine the psychosocial aspects of palliative care (purely biomedical articles are excluded). Although we include all care settings in our selection, we pay particular attention to home care and bereavement issues.
